Subject: New JCA-IMT2020: subscription to the mailing list and invitation to the first meeting, 10 July

Dear All,

A new Joint Coordination Activity on IMT-2020 (**JCA-IMT2020**) was created by the SG13 in February 2017 as part of implementation of WTSA-16 Resolution 92 "[Enhancing the standardization activities in the ITU Telecommunication Standardization Sector related to non-radio aspects of international mobile telecommunications](#)".

The scope of the JCA-IMT2020 is the coordination of the ITU-T IMT-2020 standardization work with a focus on non-radio aspects within ITU-T and the coordination of communication with standards development organizations, consortia and forums also working on IMT-2020 related standards.

On behalf of the JCA-IMT2020 chairman, Mr Scott Mansfield (Ericsson Canada) you are kindly invited to follow the activities of the group that will have its inaugural meeting on 10 July, 11:00 – 13:00, alongside the co-located rapporteur group activities of SGs 11 and 13 in Geneva. Details are made available at the [JCA-IMT2020 homepage](#). Agenda for the first meeting may be found in the Annex 2 of the [Circular 25](#).

If interested, please subscribe to the JCA-IMT2020 mailing list (jcaimt2020@lists.itu.int) that is available for subscription at our [Services and Subscription webpage](#). Mailing list can be found under **ITU-T -> Other Groups -> JCA -> IMT2020**.

Thank you.

Best regards,
Tatiana
