Members, Dave Ringle IEEE Staff

SUBJECT: Third report in a series of reports to the 2017-04-03 update request by SASB

DATE: 14 July 2017

Dear SASB Chairman,

Anticipating SASB expects another update report for its next meeting similar to your 2017-04-03 update request ¹ “Since the SASB oversight [of P802.11ax] will continue, can you please prepare an update for the June SASB meeting?” the following observations have been made:

1. IEEE 802 LAN/MAN Standards Committee held its 9-14 July 2017 plenary session in Berlin, Germany. The 802.11ax Task Group continues to have robust (100+ individuals) participation and activity. Many meetings were held during the session to resolve the thousands of comments received on the January 2017 Working Group Letter Ballot.
2. There have been no significant observable changes to the 802.11ax task group operations from the previous report (<https://mentor.ieee.org/802-ec/dcn/17/ec-17-0086-01-00EC-chair-letter-to-sasb-providing-802-11ax-update.pdf>).
3. The 802.11 Working Group Chair and 802 Executive Committee conclude the remedial measures have been effective.

Finally, I have a request. Please provide the criteria you expect to use to terminate the current ‘SASB oversight’ state of the 802.11ax Task Group.

Thank you and Regards,

/s/ Paul Nikolich

Chairman, IEEE 802 LAN/MAN Standards Committee

1: Email from SASB Chair:

03 April 2017

Dear Paul, Chairman, IEEE 802 LAN/MAN Standards Committee Sponsor,

FYI the Standards Board passed the following resolution at the March meeting: « In regards to P802.11ax, the SASB concluded that the measures are effective, SASB oversight will continue, and notes that a ProCom Ad Hoc was formed to determine whether changes are needed in IEEE-SA policies and procedures regarding dominance. »

Since the SASB oversight will continue, can you please prepare an update for the June SASB meeting?

Thank you for the previous inputs.

Best regards,

Jean-Philippe Faure, 2017 SASB Chair
