Comments that support the remaining disapprove votes and responses

None, draft has 100% approval

Comments received on final recirculation ballot

The two comments received were editorial comments on the frontmatter. Both were rejected as out of scope as they did not apply to the changes between IEEE P802.3dd D3.0 and IEEE P802.3dd D3.1 or unsatisfied comments associated with "disapprove" votes from previous ballots. Both comments will be passed to the IEEE staff editor for consideration during publication editing.

Clause 12 'Procedure for conditional approval to forward a draft standard' of IEEE 802 LMSC Operations Manual includes the text 'Where a voter has accepted some comment resolutions and rejected others, only the comments of which the voter has not accepted resolution should be presented.'
