

SA SOLUTIONS & 802 EC UPDATE NOVEMBER 2023

DCN ec-23-0191-00-00SA

MENTOR/IMAT

- Sync with myProject still only functional for 1-way updates.
 - Addressing recent issues reported:
 - Problem: User emails get out of sync between myProject and IMAT. If rosters get uploaded using an old email, it now creates a new user record instead of updating the old one.
 - Problem: Employer info is not updating from myProject to IMAT
 - Solution: Implement sync on user emails and employer fields. Possibly use last updated stamp to use most recent value. (Fix should be implemented before end of year.)
 - Solution: If SA PIN values are included in the roster uploads, key on this value instead of email. (Implementation TBD)
 - Please report all issues to standards-support@ieee.org
