Reference	Agenda Item #8.022, Time: 4:21 pm

Item #8.023, II, 802 / IETF SC Report, Stanley

As indicated at Monday's meeting, the IEEE 802 IETF SC didn't meet this week. Nothing to report.

Item #8.024, II, 802 Public Visibility SC Report, Baykas

Tuncer Baykas gave a verbal report. He requested the WG chairs to share reports with him to post. He intends to post more pictures.

Item #8.03, Officers Reports

Item #8.033, II, Executive secretary report, Rosdahl

Looking for anyone interested in venue planning. Rosdahl displayed slide #27-29 from attached presentation, [ec-25-0138-00-LMSC](#).

Item #8.04, II, Announcement of 802 EC Interim Telecons, Rosdahl

Rosdahl displayed Slide #30 of [ec-25-0138-03-LMSC](#). Clarified that June call on the slide was in error. Both August and November calls will be cancelled.

Item #8.05, II, Call for Tutorials for Nov 2025 Plenary , Rosdahl

Displayed Slide #31 of [ec-25-0138-03-LMSC](#).

Item #8.06, II, Action Item Review, Kochuparambil

The Chair requested that we move Item #8.06 to the end of the agenda to allow capture of action items during the following discussion topics. No one objected.

BREAK

Item #9, Any Other Business

Item #9.01, II, Appropriate use of IEEE 802 Meeting Resources, Gilb

Before jumping into the discussion topic, the Chair inserted a few announcements:

- John D'Ambrosia expressed deep gratitude for the last 13 years and good-bye! The committee burst into applause in gratitude of his great service.
- Clint Powell offered an extra ticket for a social, in-person event in Madrid.

The Chair presented Slide #6-8 from the attached presentation, [ec-25-0158-02-LMSC](#). Clarification was made that informal discussion and breakout sessions are appropriate, however no one can be excluded from either or asked to leave the room.

Law shared the 802.3 practice of “sergeant of arms” with people refusing to declare their affiliation on the teleconference. There was a request to consider a rule change on a requirement to declare affiliation.

Item #9.02, II, Encouraging technical demonstrations at Plenary Sessions, Gilb

The Chair presented Slide #9 from the attached presentation, [ec-25-0158-02-LMSC](#).

Discussion included:

- Restriction of allowed times, should we allow such demonstrations? It should be considered what constraints
- Example of demonstrations and hackathon during IETF week. PES is another example of where demonstrations are allowed, consider looking at their rules for such.
- General support expressed
- Suggestions given of ‘open house’ style
- Clear guidance would be necessary so interpretations are limited, while allowing flexibility for variety of situations
- Noted that this could also attract more students
- The rules should have a ‘release valve’ that allows leadership to take action in case demonstration gets disruptive
- Example of IEEE Kobe parallel day demonstration; seemed to work well
- Rosdahl noted that it is possible in some venues, and may not be in others

ACTION ITEM: The Chair to draft typical demonstration best practices/guidelines.

Noted that Christy already has some guidelines drafted that were given for the Kobe meeting.

ACTION ITEM: David Law to gather rules/guidelines for demonstrations allowed in other standards bodies and IEEE Computer Society (see Edward Au).

Caution was given to the strict rules of Standards activities.

Item #9.03, II, IEEE Elections, Gilb

Chair presented Slide #10-12 from the attached presentation, [ec-25-0158-02-LMSC](#).

The Chair asked to take his last item 9.05 out of order. No objection was raised.

Item #9.05, DT, Response to letter sent to IEEE SA president regarding PSDO process, Gilb

Chair presented Slide #13 from the attached presentation, [ec-25-0158-02-LMSC](#). The Chair noted that this response was already set.

Nikolich encouraged the BoG members in attendance that are in support of the letter material to help echo the importance of this topic to the President and BoG.

Revisit of Item #9.04, DT, Hybrid Meeting Technology Improvement Opportunities, Potterf

Jason Potterf presented Slides #1-7 of [ec-25-0178-00-LMSC](#) and pausing to discuss “Path 1.” Path 1: Remain with Slido. Potterf offered to give training. Discussion:

- Expressed challenges with using/learning with Slido UI
- Sunday tutorial at this meeting was helpful, but individuals still struggled
- Request for directed training on use cases related to standards; perhaps NOT on meeting week
- Clarity of IEEE-SA WebEx license level
- Frustration expressed with shared licenses. Currently, IEEE-SA has granted 1 license for each WG. Desire to get separate accounts was expressed
- TAG/WG Chairs are encouraged to put in help requests when issues arise
- Encouragement to STOP using Slido inside Webex, but encouraged to use the external GUI (participants scan a QR code)
- Some individuals expressed disinterest in continuing to use Slido; due to steep learning curve. Suggests we consider other paths.
- Question: Can you IEEE SSO to get onto Slido?

ACTION ITEM (previous item that was lost): The Chair to understand who IEEE-SA gave the IEEE 802 licenses to. **le: Dave Halasz does not have a WebEx license.**

ACTION ITEM: Potterf to research leveraging IEEE SSO/Authentication (which verifies membership status) for WebEx/Slido sign on.

Potterf continued to present Slide #8 of [ec-25-0178-00-LMSC](#) and passed to discussed “Path 2.” Path 2: Use DVL for all voting. Discussion:

- Parsons explained how handles 802.1 pre-load of that DVL
- Clarity on anonymous/roll call use case.

- DVL audience used email addresses for identity

ACTION ITEM: Potterf to research the possible use of SA PIN for DVL pre-load, or integration with IEEE SSO/Authentication.

As time limit approached, he quickly went through Slides #9-20; touching on “Path 3” Google Forms/sheets – No discussion time allowed and a recent experience at Meetcho/IETF – It was noted that Meetcho has more features than IEEE 802 has typically used. It was also noted that initial discussions with Meetecho, 5 years ago, presented a higher cost and higher tech than our current solution.

ACTION ITEM: Potterf to revisit Meetecho license/tool offerings.

No discussion time remained.

Item #10, ADJOURN SEC MEETING, Gilb

Meeting adjourned, by rule, at 6:00 pm

Item #8.06, II, Action Item Review, Kochuparambil

No time remained. Agenda item dropped.
