

Cut-Through Forwarding (CTF) in Bridges and Bridged Network – Status of 802 Nendica/802.3 NEA joint meeting discussions

Johannes Specht

(Self; Analog Devices, Inc.; Mitsubishi Electric Corporation; Phoenix Contact GmbH & Co. KG; PROFIBUS Nutzerorganisation e.V.; Siemens AG; Texas Instruments, Inc.)

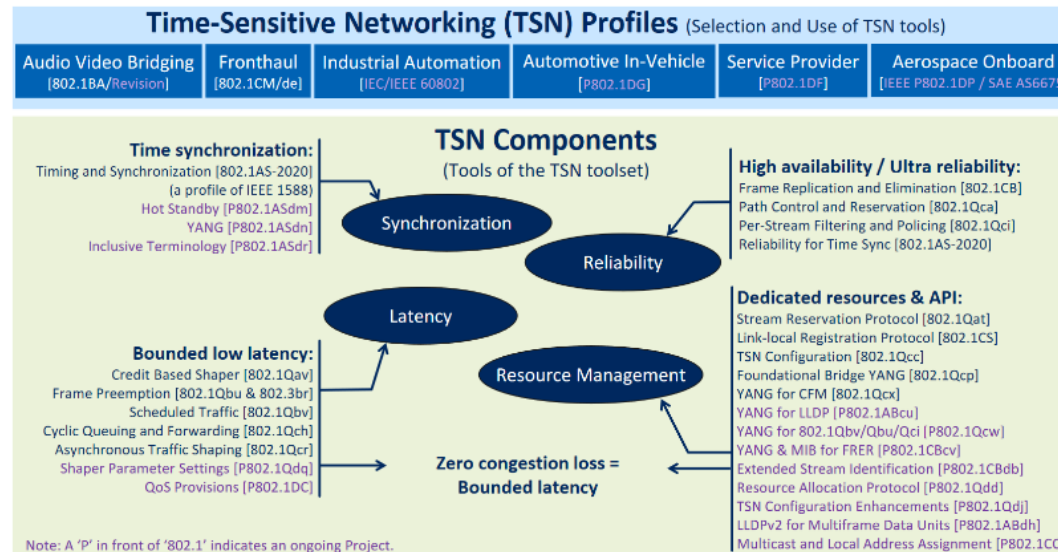

DCN 1-22-0036-02-ICne

Past 802 Nendica/802.3 NEA Joint Meetings

Date	Agenda	Selected Contributions
June 22, 2022 and June 29, 2022	https://1.ieee802.org/ctf-agenda-2022-06-22/ https://1.ieee802.org/ctf-agenda-2022-06-29/	<ul style="list-style-type: none"> • Roger Marks, CSD Compatibility Criterion for Cut-Through Forwarding • Johannes Specht and Dieter Proell, Johannes Specht Cut-Through Forwarding (CTF) in Bridges and Bridged Network – Need for Unified and Standardized Management
June 8, 2022	https://1.ieee802.org/ctf-agenda-2022-06-08/	<ul style="list-style-type: none"> • Johannes Specht, Cut-Through Forwarding (CTF) in Bridges and Bridged Network – Background and Clarifications

April 20, 2022	https://1.ieee802.org/ctf-agenda-2022-04-20/	<ul style="list-style-type: none"> • Johannes Specht, Cut-Through Forwarding (CTF) in Bridges and Bridged Network – Status Update

From the Meetings on June 22 & 29, 2022

IEEE 802.1 is the best Venue

- IEEE 802.1 is the “home” of the other TSN tools → management for CTF in IEEE 802.1 fits into the existing standardized management system (managed objects, management flows, MIB, YANG)
- Orchestration of per-device management from a network level point of view existent in 802.1
- Broad acceptance by vendors/markets expected (e.g., IEEE/IEC P60802 profile)

802.1 Discussions during the IEEE 802 July 2022 Plenary Session

ET Start	ET End	Monday Jul 11	Tuesday Jul 12	Wednesday Jul 13	Thursday Jul 14	Friday Jul 15	PT Start	CEST start	JST start				
07:00	07:30	Hybrid Orientation					04:00	13:00	20:00				
07:30	08:00						04:30	13:30	20:30				
08:00	08:30	TSN	Maintenance	TSN P802.1DP	Security	TSN P802.1DG	Nendica	TSN 60802	05:00	14:00	21:00		
08:30	09:00								05:30	14:30	21:30		
09:00	09:30								06:00	15:00	22:00		
09:30	10:00						06:30	15:30	22:30				
10:00	10:30						07:00	16:00	23:00				
10:30	11:00	Opening Plenary	TSN P802.1DG	Security	TSN	TSN 60802	Security	TSN	TSN 60802	07:30	16:30	23:30	
11:00	11:30									08:00	17:00	00:00	
11:30	12:00									08:30	17:30	00:30	
12:00	12:30						09:00	18:00	01:00				
12:30	13:00						09:30	18:30	01:30

Proposed Topics for Discussion

- Recap: Suggested Goals for the Joint Nendica/NEA Meetings
 - Identify Stds requirements, inconsistencies and possible constraints w.r.t. CTF
 - Understand concerns and positions of WG 802.1 and 802.3 individuals
 - Building consensus across 802.1 and 802.3 on CTF
- Proposed Discussion Topics Tomorrow
 - Outcome of joint discussions
 - Logistics
 - A third 802.1 WG motion on P802.1DU PAR/CSD
 - Active participation - need for standardizing CTF in 802
 - 802.1 WG expectation on potential future Nendica/NEA joint activity
 - Technical
 - Service Interface, atomic and instantaneous
 - IEEE 802.1 WG statement on compatibility (CSD)
 - Minimum required technical features for a CTF Standard
 - A.O.B. on CTF – you're welcome to contribute!

Author's summary of discussions during the IEEE 802 July 2022 Plenary Session

- P802.1DU clarification requested by IEEE 802.1 individuals prior to moving on
 - Just a managed object to enable/disable CTF, or more (timing parameters, forwarding operations, ...)?
 - Suggested form: Specification document (individual contribution)
 - CTF Study Item?
- CTF capable MACs
 - NEA concluded that a new definition of the IEEE 802.3 MAC would be required to provide cut-through capability
https://www.ieee802.org/3/minutes/jul22/0722_NEA_close_report.pdf
 - *Some* MAC with support for CTF desirable
<https://mentor.ieee.org/802.1/dcn/22/1-22-0037-00-ICne-cut-through-forwarding-status-update-from-nendica-perspective.pdf>

Author's summary of discussions during the July 2022 Plenary Session

- Venues for standardizing CTF, or parts thereof
 - IEEE 802
 - IEEE 802.1 & 802.3
 - new 802 WG
 - Others
 - IEC
 - IETF
- Some sense of urgency
 - CTF support required at least by IEEE/IEC 60802
 - May apply to other profiles/markets (e.g., Pro A/V, data center)
<https://mentor.ieee.org/802.1/dcn/21/1-21-0037-00-ICne-ieee-802-tutorial-cut-through-forwarding-ctf-among-ethernet-networks.pdf>
 - Short term and long term approaches for specifying CTF may be considered
