Vice chair mentions that no comments received on the informal letter ballot.

There are comments on the band designation, which requires to be align throughout all PHYs.

There is also a comment to consolidate all PHYs data rate/ modulation into one table and provide a reference in each PHYs to the consolidated table.

Discussion on update the naming for CCM* to AAD throughout the spec.

The discussion was to submit all these comments as part of the formal letter ballot.

There are comments being deferred previously and suggestion was to review the comment spreadsheet.

There are comments heard on the table header format, which is not consistent throughout the spec.

There is also comment on the PHY operating modes and duplication in many PHYs for the usage of same operating modes. The commenter mention to submit comment during the formal LB.

Discussion on the letter to external organization is not being sent out. IEEE staff has a new process for providing the draft standard to external organization and all has been sorted out.

The plan is to send out the letters by end of the week.

Kunal and Tero to work on the proposed updates to the revision draft.

The next session will be on Thursday PM2 and in between sessions are cancelled.

The meeting is recessed until Thursday PM2.
