Called to Order
TG4z is called to order at 08:13 Local Time (San Diego). Chair and acting Recording secretary are present.

Opening Report and Meeting Preamble
Chair presents Meeting preamble slides, document # 15-18-0317-01 including the IEEE patent policy information. (https://mentor.ieee.org/802.15/dcn/18/15-18-0317-01-004z-tg4z-opening-slides.ppt)

Chair directs attendees to review the meeting preamble slides via the link on the 802.15 home page: http://standards.ieee.org/board/pat/pat-slideset.ppt. Chair presents slides 1-5. Attendees are informed that:

• The IEEE’s patent policy is consistent with the ANSI patent policy and is described in Clause 6 of the IEEE-SA Standards Board Bylaws;

• Early identification of patent claims which may be essential for the use of standards under development is strongly encouraged;

• There may be Essential Patent Claims of which the IEEE is not aware. Additionally, neither the IEEE, the WG, nor the WG chair can ensure the accuracy or completeness of any assurance or whether any such assurance is, in fact, of a Patent Claim that is essential for the use of the standard under development.

The foregoing information was provided; the chair provided an opportunity for participants to identify patent claim(s)/patent application claim(s) and/or the holder of patent claim(s)/patent application claim(s) of which the participant is personally aware and that may be essential for the use of that standard: No responses were heard.
