Roger B. Marks
Chair, IEEE 802.16 Working Group
r.b.marks@ieee.org
20 October 2012

Dear P802.16n Ballot Group:

Thank you for your participation in the IEEE-SA Sponsor Ballot of P802.16n/D5.

Comments received during the ballot were resolved by the IEEE 802.16 Working Group during its Session #81 in September. We have uploaded the resolutions to the IEEE-SA myBallot system. In addition to the 24 comments submitted through myBallot, the 802.16 Working Group received another 70 comments directly; the latter are not associated with Disapprove votes. The Working Group has posted the full documentation regarding the resolution of all of these comments, along with the editor's implementation notes, in two alternative formats in document IEEE 802.16-12-0559-05 at <http://doc.wirelessman.org/16-12-0559-05>. In that file, the myBallot comments are numbered i-1 through i-24, corresponding to the myBallot numbers; the additional comments are numbered 0001-0070. Note that some changes refer to documents contributed directly to the 802.16 Working Group. These are available at https://mentor.ieee.org/802.16/documents?is_group=000n.

We are requesting that the IEEE Balloting Center initiate a recirculation of the new draft P802.16n/D6. Note that the base standard being amended is IEEE Std 802.16-2012, as previously amended by IEEE 802.16p-2012. So that you may understand the context of the draft amendment, we are providing you with the base standard. For your information, we are also including a file (P80216n_D6delta) prepared to indicate the changes made in P802.16n/D6 with respect to P802.16n/D5.

Please take this opportunity to review the material. Note that comment will be considered as a valid element of a Disapprove vote unless the voter enters it into the myBallot database and designates it appropriately.

Sincerely,

Roger Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access
