

IEEE 802.16 Working Group on Broadband Wireless Access

Call for Contributions

IEEE Project P802.16q

Issued: 2 December 2013

Deadline: 19 January 2014 AOE

On 30 August 2012, the IEEE-SA Standards Board approved Project Authorization Request (PAR) [P802.16q](#) for the development of an amendment to IEEE 802.16 on *Multi-tier Networks*. The [IEEE 802.16 Working Group](#) is assigned to develop the standardization project.

During its Session #88 (11-14 November 2013 in Dallas, Texas), the IEEE 802.16 Working Group reviewed contributions towards a P802.16q Amendment Working Document.

The IEEE 802.16 Working Group will continue development of the project during its Session #89 (20-23 January 2014 in Los Angeles, CA, USA).

This announcement requests further contributions towards the document structure and proposed text of a P802.16q Amendment Working Document. Any proposed text should be developed such that it can be readily combined with IEEE Std 802.16. In addition, this announcement requests contributions towards proposed text of a P802.16q System Requirements Document. (SRD)

Contributions of proposed text for the P802.16q Amendment Working Document that are in violation of the technical decisions in the P802.16q System Requirements Document will be considered out of scope, unless the group first approves an associated Change Request (CR) to the SRD, which, if required, should be submitted as a separate contribution to the SRD.

In advance of Session #89, this Call for Contributions solicits input documentation toward the development of P802.16q, particularly on the following topics:

- (1) Comments on the draft P802.16q Amendment Working Document [IEEE 802.16-13-0026-03](#).
- (2) Comments on the draft P802.16q System Requirements Document [IEEE 802.16-13-0020-01](#).

Comments should be prepared using the Commentary tool, following the instructions at <http://ieee802.org/16/docs/Commentary> and using the file name format "16qComments_YourName.usr". Comments and contributions will be considered non-confidential and will be posted for public access on the IEEE 802.16 Web Site <http://WirelessMAN.org>. Make use of the "16q" upload directory at <http://upload.WirelessMAN.org>.

Submit your comments and contributions by the deadline above following the IEEE 802.16 Document Submission Instructions <http://ieee802.org/16/submit.html> using the File Code "000q".
