2 Discussion and Resolution of MEC comments

Reviewed comments and directions from MEC:

- Copyright and Open source: The draft does not use Open Source, and the group is not aware of any material used that requires copyright permissions; the group will review each revision of the draft as requested and ensure any changes that introduce such material are identified and appropriate actions taken.
- Legal: "Absolute" verbiage: Group reviewed draft and the draft makes no guarantees. Each instance of suspect words are from referenced sources, e.g. "Guaranteed Time Slot" which is the name of a feature defined in IEEE Std 802.15.4.
- Standards verbs: Reviewed 12 instances of "shall" in the draft; 5 instances identified for change (see below).
- Trademarks and Service marks: TG Chair and TE to consult with editors to confirm correct formatting/use of trademarks and add introductory text as needed.
- Registration Objects: The draft does not contain any objects requiring registration. Group will review at each draft revision for possible registration objects.
- General: Annex B content will be moved to Bibliography combining annex B and annex C as requested.
