Mentor ePolls
Polling for Groups
What is ePolls?

- ePolls is the newest feature of Mentor, the IEEE tool for Working Group collaboration.
- ePolls allows group officers to set up online ballots strictly for the use of their groups.
- ePolls is structured similarly to the myBallot section of myProject™, but is flexible enough to be used for whatever the group wishes to use it for.
- Unlike myBallot, ePolls will **not** handle group balance, allow for recirculations or create automatic notifications and invitations.
How do I access ePolls?

• Access ePolls from your group’s mentor area.
• You must request access to ePolls for your mentor group.
• Email myproject-admin@standards.ieee.org to request ePolls, or contact your staff liaison for more information. A complete list of staff liaisons can be found here: https://development.standards.ieee.org/pub/liaisons
• Access mentor at:
